Wolf Creek Resident Office

THE JUDY COMPANY, INC.
8334 Ruby Ave
Kansas City, KS 66111

Gentlemen,

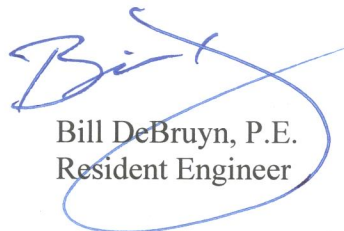

This letter regards contract # W912P5-11-C-0002, entitled 'Wolf Creek Gallery and Plaza Grouting'. This letter recognizes your company for the zero-lost-time-accidents record achieved during the performance of this contract.

The Government would like to recognize Judy Company for their safety record at Wolf Creek Dam during the performance of the "Gallery and Plaza Grouting" contract. Judy Company recorded a total of 63,189 contract exposure hours. No lost time accidents were sustained during the performance period. This record is a testament to Judy Company's proactive and effective safety management.

It should be noted that this was not a low-risk contract. The primary work was drilling and grouting. Hazards encountered included: night shift work; entry into a permit-required confined space; working in an 8-ft-by-6-ft gallery tunnel; personnel evacuations due to encountering subsurface hydrogen sulfide pockets while drilling; and working with conductive drill masts in the vicinity of a hydropower electrical switchyard. These hazards were mitigated by the Government / Contractor partnership for safety.

The point of contact for this letter is the undersigned.

Sincerely,

Bill DeBruyn, P.E.
Resident Engineer
