

Slab Lifting Inside a Building

The Judy Company recently received praised from the Merritt Company on a slab lifting project.

Dear George,

"Thank you and your organization for an excellent job on our slab-lifting project. The care used by your employees is to be commended. In this day when so few have regard for the job done and the care taken to protect someone else's property, the performance by your employees was exceptional. Thank You!"

Sincerely,

Gary Merritt
The Merritt Company, LLC
