

Project:

Ozark St Francis National Forest FHWA Slide Remediation.

Owner:

Eastern Federal Lands Highway Division, United States.

Location:

Ozark St Francis National Forest, Arkansas.

General Contractor:

Axioo Construction, Inc.

6620 Slate Hill Road, Mulberry AR 72947

Description:

The project consisted of the installation of high capacity strand anchors designed to mitigate a land slide that is endangering a Forest Service road. Project included installing 100 anchors along the slide in rough terrain in a remote area of Arkansas. The anchors were stressed against large precast blocks to mitigate the earth movement.
